A reception will be given them at the home of the groom's parents, Mr. and Mrs. George D. Mosley.

TWO SMALL FIRES.
Two small fires put the department into active service yesterday evening. The first was at 5:50 o'clock, caused by the burning of the stable connected with Wood's wood yard, at Second and Hull Streets; loss about \$100. The second was a small blaze on the side of Mr. Quince Harris' house, near Second and Hull, about 7:30 o'clock; loss, about \$25. The department did good work at both fires.

FRIENDS FARE OUT.
Mr. A. C. Harding was out of a warrant yesterday evening for the arrest of M. A. Rightall. The latter was bailed for his appearance in the Police Court this morning.

Mr. Harding claims that Mr. Rightall cursed and abused him, and shoved him out of his own office of business, "against the peace and dignity of the Commonwealth of Virginia."

Both gentlemen occupy the same business building.

WENT HUNTING.
Three of Manchester's "finest" went hunting for turkeys yesterday morning in the wilds of Chesterfield. Their friends are looking for them.

LOCAL BOARD IS SUSTAINED
The Dinwiddie School Matter is Decided by State Board.

Board.

The State Board of Education was in session practically all day yesterday considering the Dinwiddie case, where H. F. Dabney sought the transfer of his children from one public school in the Nanamozine District to another. Objection was made by the patrons of the latter on account of the rumor that the children had been blood in their veins. Much of the time was taken up in hearing evidence and argument, and finally it was determined not to interfere with the decision of the local board, which was to allow the children to continue at the school where they were originally entered. It was proved, however, to the satisfaction of the board that the rumor was to mislead blood was unfounded, though Dabney admitted that some remote ancestor was part Indian. Mr. J. M. Quicke, of Petersburg, represented Dabney before the board. The body will meet again to-day and will take up other matters for which it was called.

The decision in the Dinwiddie case is in keeping with the law, which leaves all such matters to the local boards. Again, it is a victory for the parents' interests of no one, as the children may continue in the white school where they were originally entered.

UNION COUNCIL.
One of the Most Interesting Sessions in Its History.

Union Council, Royal Arcanum, held one of the best sessions last night in its history. The hall was filled with the members of the council, a large delegation from Henrico Council and several from Shockoe. A class of eight candidates was impressively initiated.

The visiting officers occupied the chairs, with Past Regent Dabney, of Shockoe, presiding. After the initiation and other business was through, with smoking, held an open house.

The speakers were Messrs. Dabney, C. Richardson Woodburn Reams Crane, Duke and Bickers. The speeches were short and to the point, and were interspersed with musical selections by Williams and Freeman, Old Hickory Quartette, Davis and Phillips, Fessenden Gay Mosby, teams and McDowell, Lonnie Wilson, Semmes and Reame, James and Hill, Joseph Rickerstaff and others. A number of old Arcanumites described the meeting as one of the best they ever attended.

The Penitentiary Board.
The penitentiary board met yesterday afternoon. Three members were present: Messrs. Johnston, Moore and the warden. They spent the period of meeting in going over the annual report of Superintendent Heime. No action was taken in regard to the case of the enforced absence of the other members.

The report will be before the board again on next Tuesday afternoon, when all of the members are expected. Then it will be decided also when the body will meet to elect a superintendent of the institution.

Street Committee.
The Street Committee held a regular meeting yesterday afternoon, and disposed of a large amount of routine business.

FOOT-BALL TO-MORROW

The Virginia and North Carolina Teams Will Reach the City To-day.

A FINE CONTEST EXPECTED

The Admission Price Likely to Reduce the Size of the Crowd to Some Extent.

By this evening the hotel lobbies and the streets will be thronged with University men from Charlottesville and Chapel Hill, all beribboned and full of foot-ball talk and revolving around "the team," which means the eleven men who are expected to uphold the athletic prestige of Virginia or Carolina. On the morrow the great foot-ball teams of the Universities of Virginia and North Carolina will line-up at Broad-Street Park for what promises to be one of the most stubborn battles ever fought by the Blue and White and the Orange and Blue. Certainly that is the expectation. Neither team is over-confident, and indeed they may be said to be confident. Virginia expects to win—experts say by from 6 to 16—but does not anticipate a walkover, and is prepared for what it is really expected a very hard, clean struggle. Carolina is not making any claims and hardly expects to win. The Carolina team will arrive this evening and are expected to stop at Murphy's. The Virginia eleven and substitutes will be down this afternoon and will make their headquarters at Murphy's also.

Carolina's Carolina has been experimenting with a view to strengthening its line. Fisher, a new man, has been put at left end; Jacobs, at quarterback, instead of Engle; Mann and Newton are the halves, and Robertson, the full back, with Heister as substitute. Captain Jones, formerly a tackle and a powerful, heavy man goes to guard. Donnelly and Foust are veteran tackles and could hardly be improved. Mr. Foust is expected to play. Here is the expected line-up, so far as now known:

Virginia. Position. North Carolina.
Hull.....left end.....Fisher
Hull.....left tackle.....Donnelly
(Captain)
Elmer.....left guard.....Albright
Conner.....center.....Stuart
Spates.....right guard.....Jones
(Captain)
Conner.....right tackle.....Cox
Zinn or Cook.....right end.....Cox
Polard.....quarter back.....Jacobs
Head.....left half back.....Mann
Wall.....right half back.....Newton
Watkinson.....full back.....Robertson

NO ASSET CURRENCY

This Feature Lacking in Financial Measure Introduced by Representative Hill.

SOME OF THE PROVISIONS

No Limit Put on Amount of Subsidiary Coin to Encourage Banks to Issue Notes.

The Times-Dispatch Bureau, Colorado Building, Fourteenth and G Streets, N. W., Washington, D. C., Nov. 24th.
The most important bill introduced at the present session of Congress was a financial measure introduced to-day by Representative Hill, of Connecticut. The bill embodies seven distinct propositions. There is no provision for an asset currency, which was the feature of the bill for which Mr. Hill and Representative Fowler, the patron, contended in the last Congress.

The new bill provides for uniform treatment of all public moneys, including customs, which, under the present law, must be held in reserve. It also repeals the feature of the present law which limits withdrawal from circulation to \$3,000,000 a month.
The bill makes provision for the issuance of subsidiary silver when the bullion in the treasury is exhausted, as Mr. Hill thinks it will be by the end of the present fiscal year. The bill does not put any limit upon the amount of subsidiary silver coins that may be minted. The bill provides that if a still further demand for small silver coins shall exist the Secretary of the Treasury may melt and coin into half-dollars and quarters the old silver "cartwheels" in the treasury.

SMALL NOTES.
A section of the bill authorizes the Secretary of the Treasury to withdraw from circulation from time to time any and all certificates of silver certificates and United States notes and to substitute therefor like amounts of such denominations as in his judgment public convenience and necessity may require. The object of this provision is to call in as often as necessary the \$5 and \$10 silver certificates and to substitute therefor \$1 and \$2 certificates. The bill authorizes the issue of gold certificates in denominations of \$10 to fill in the gap made by the withdrawal of the silver certificates, thus fixing the minimum gold certificate at \$10 instead of \$20, as at present. To take the place of the \$5 certificates withdrawn the bill proposes to remove the restriction on national banks which does not allow more than one-third of their circulation to be in \$5 notes.

ELASTICITY.
Finally, the bill provides for the uniform tax of one-half of one per cent. on the circulation of national banks, based on any class of gold certificates, and the present law, the tax of one-half of one per cent. has been confined to bonds bearing two per cent. interest, while a tax of one per cent. has been imposed on bonds bearing a higher rate of interest. The result has been, Mr. Hill said to-day, that circulation has been almost entirely on the bond bearing two per cent. interest. He wishes to invite circulation on the bonds bearing a higher rate, thus widening the base of this class of circulation and making it easier for the banks to issue notes and increase the volume of the circulating medium.

THE OYSTER MATTER.
Committee Hear Argument on Bill to Break Baylor Survey.

The Committee of the House of Delegates heard in the Committee on Chesapeake and the Tributaries yesterday afternoon about 4 o'clock and sat until about 5. The committee consists of Mr. S. Wilkins Matthews, of Accomac, chairman; Messrs. Jordan, of Nansemond; Hunley, of Mathews; Cardwell, of Onancock; Geo. C. Baker, of Westmoreland; Lyell, of Richmond county; Graves, of Orange; Sneed, of Princess Anne; Branch, of Isle of Wight; Lawson, of Middlesex; Goodwin, of Nelson and Elkins, of Rappahannock.

The object of the meeting of the committee was to consider the Jordan bill proposing to break the Baylor survey and to lease out to planters the barren or depleted rock embraced therein. The provisions of the bill are familiar through frequent publication.

The committee considered the bill at some length, familiarizing themselves with its provisions, and then gave an audience to any who desired to be heard, either for or against the bill.

Four gentlemen addressed the committee in the afternoon, all favoring the proposed bill to break the survey. These gentlemen were Mr. S. Wilkins Matthews, of Accomac, and Mr. S. Wilkins Matthews, of Accomac, and Mr. S. Wilkins Matthews, of Accomac, and Mr. S. Wilkins Matthews, of Accomac.
